

Generics Season 1

IN-HOUSE ECLIPSE
GLASSES DESIGNS

Generics Season 1

A NOTE ON THE ARTWORK

Here are the first five generic eclipse glasses designs we're running this season.

Every design in this set was made by a real artist working here in Australia. We don't use AI on our in-house artwork used for our generic designs.

Four of the designs are by Jordi Corbett and Alex McLarty. The fifth is our own, done by the design team at Aurasite.

We'll be adding work from more local artists over the coming months, so this collection will keep growing.
